

Van Alstine Blades

The synergistic effect between Van-Alstine tools and blades results in unequalled performance.

Grooving Blades:

Blade sizes correspond to thirty-seconds of an inch.

A #6VF will cut a groove 6/32" wide and has a flat bottom.

Grooving Blade Types

V Series – "V" series technology has resulted in delivering a powerful groover in a small package. V Blades are compatible with the **V100** and **GV1000**... RLM stock flat bottom shape only.

VF Sizes are as follows:

6VF - 5mm	8VF - 6mm	10VF - 8mm	12VF - 10mm	16VF - 12mm

G Series – G Blades are a slightly heavier gauge than the V Blades and can cut wider grooves, up to 3/4" wide. They are compatible with the **GV1000 only**. RLM stock flat bottom shape only.

GF Sizes are as follows:

4GF - 3mm	6GF - 5mm	8GF - 6mm	10GF - 8mm	12GF - 10mm
